

## **Want to file a Conventional Filing Placeholder, but cannot find the event in ECF**

There is not a separate Conventional Filing Placeholder event in ECF. The Conventional Filing Placeholder is used to replace any filing that occurs conventionally. The document holds the place on the "official" electronic court record. Please file using the event of the document you are replacing. For example, file the affidavit or exhibit using the event but instead of attaching the PDF document, attach a PDF copy of your conventional filing place holder.
